

## Albania Highlights and UNESCO World heritage tour - 10 days

Some say that visiting Albania is as close as you'll get to traveling back in time. It wasn't until the collapse of the People's Socialist Republic of Albania in 1991 that the world got its first glimpse of the country within. Huge snow-capped mountains, inviting beaches, pretty rural villages, a genuine subsistence culture and an exceptionally friendly welcome is what you will find here. We ride through the very best of Europe's beautiful unknown. This diverse tour will lead you from the tranquil beauty of Lake Ohrid, via picturesque mountains and sparkling rivers, to the inviting beaches of the Albanian Riviera, providing a taste of all the very best Albania has to offer. This incorporates visits to UNESCO heritage sites, as well as fascinating glimpses into an untouched subsistence culture. A challenging route, providing a feast for the senses and plenty of opportunity to experience the hospitality of the friendly Albanian people.

### Day 1: Arrival in Tirana

Rendezvous at Tirana airport and transfer to hotel in Tirana city centre. Meet the rest of the tour group over a relaxing dinner. After checkin in at the hotel, depending on the arriving flights, we will have the chance to do a tour of Tirana and visit the nuclear bunker of Enver Hoxha, the fruit and vegetable market and the national museum of history next to the newly build city centre of Tirana. Before the welcome dinner, your tour guide will go with you, through all the tour details and tell you everything you need to know about the amazing tour you are about the journey. Panniers will be given to you at this point that you will use for the duration of the tour as well as a set of maps with details about each riding day. Lively, colourful Tirana is the beating heart of Albania, where this tiny nation's hopes and dreams coalesce into a vibrant whirl of traffic, brash consumerism and unfettered fun. Having undergone a transformation of extraordinary proportions since awaking from its communist slumber in the early 1990s, Tirana's centre is now unrecognisable, with buildings painted in primary colours, and public squares and pedestrianised streets that are a pleasure to wander. Trendy Blloku buzzes with the well-heeled and flush hanging out in bars and cafes, while the city's grand boulevards are lined with fascinating relics of its Ottoman, Italian and communist past, from delicate minarets to loud socialist murals. Add to this some excellent museums and you have a compelling list of reasons to arrive a day earlier here.

### Day 2: Tirana > Pogradec, ~29 km

We will start the morning with a two hour transfer to the northern side of Lake Ohrid. From where, after we have unloaded the bicycles and fitted them to everyones comfort we will start cycling along the scenic shore of lake Ohrid towards Pogradec. After reaching our hotel in the town of Tushemisht, just 4 km east of Pogradec, lunch will be served at a waterfront restaurant at Drilon national park. After checking in the hotel we will continue cycling in the afternoon, crossing over into Macedonia, and visiting the monastery of St Naum. Lake Ohrid, one of the oldest lakes in the world, came into existence during a remote geological ages as a result of tectonic shifts and with its unique flora and fauna the lake is one of the largest biological reserves in Europe and with 212 known endemic species and a surface area of 358 km<sup>2</sup> it is probably the most diverse lake in the world. This lake has preserved primeval life-forms which no longer exist.

### Day 3: Pogradec > Korçë, ~51 km

Leaving Lake Ohrid, we climb to a high plateau bounded by mountains. We continue following the gorge for a while until the hills open up, leading to a vast plain and a colourful patchwork of individual farms. Depending on our arrival at the city, we will have the time to visit the old market and its quaint cobblestown streets run between and behind the main streets. Day ends with a short walking tour of Korçë, the Paris of Albania. Korçë became an important trading and handicraft centre in the 18th century due to the development of trade with neighboring regions. It has been an important religious center for Orthodox Christians and Muslims for centuries. During the Ottoman period it became one of the centres of the growing Albanian identity. The first school teaching in the Albanian language was established there in 1887, followed by Albania's first school for girls in 1891.

### Day 4: Korçë > Sotirë, ~72 km

We leave behind the agricultural plateau of Korçë, ascending steadily into the border mountains through a landscape of barren rock interspersed with wild flowers. Numerous cols and valleys lie ahead, climbing into the

### Services:

9 nights in well chosen accomodation  
 9x breakfast  
 support van  
 luggage transfer  
 rental bike  
 GPS tracks on request

06.06.2024 - 15.06.2024 - hotel according to offer

double room, BnB	950 €
single room, BnB	1170 €
twin room, BnB	950 €

heart of the Grammos Mountains and over the Barmash Pass at 1,159m. We will stop for lunch in the town of Ersekë, the highest city in Albania at about 1000m above sea level. Overnight at Sotirë farm, nestled in its own tranquil valley with all kinds of animals a family farm can have. After checking in one of the wooded bungalows, relax by the fish ponds with a glass of families special red wine made from grapes growing at 1000m of elevation.

**Day 5: Sotirë > Bënjë, ~66 km**

A climb out from Sotirë to a high Pine forest plateau surrounded by soaring peaks, before reaching the source of the River Vjosa and descending through its spectacular gorge to Leskovik. The 17km long descend to Çarshovë is both a pleasure and a thrill to cycle in one of the most scenic rides of the tour. We follow the corniche route high above the river to Përmet, famed for its cuisine and strong raki. After arriving at our guesthouse for lunch, in the village of Bënjë, we will there after continue cycling for another 4km to the thermal pools of Langarica and its canyon. A 16th century ancient ottoman bridge marks the spot and the end of the road. If you feel adventurous and want to swim alone in one of the more secluded pools, build every spring by the locals, hike upriver through one of the most magnificent canyons in Europe.

**Day 6: Bënjë > Gjirokastër, ~70 km**

We continue along the valley towards Këlcyrë, the distant shark's tooth peaks, which guard a further gorge. Ride between them to the confluence of the Drinos, following yet another gorge. This opens out into a wide plain with the town of Gjirokastër (city of 1,000 steps) high above on the right. Gjirokastër, a 'museum' town, is perhaps the most beautiful in Albania. After checking in our hotel we will go on exploring on a guided tour, visiting the charming cobbled alleyways between the white-walled buildings and the fascinating traditional houses and with a little bit of luck and good timing we might witness one of many cultural festivals, organised by the city. The most famous of which is Gjirokastër National Folklore Festival, held since 1968, and regarded as the most important event in Albanian culture.

**Day 7: Gjirokastër > Sarandë, ~70 km**

We will start the day with a brief transfer, skipping some road and starting our cycling at the top of Muzina pass towards Sarandë. The gateway to southern Albania on the Ionian coast, sandwiched between the high mountains and the sea. A short ride on a rustic ferry brings us to the UNESCO World Heritage Site of Butrint, one of the country's most important archaeological treasures, where the influences of various ancient people are clearly visible. After a guided tour in Butrint, we will make our way along the coast heading north with the island of Corfu always at your site. Inhabited since prehistoric times, Butrint has been the site of a Greek colony, a Roman city and a bishopric. Following a period of prosperity under Byzantine administration, then a brief occupation by the Venetians, the city was abandoned in the late Middle Ages after marshes formed in the area. The present archaeological site is a repository of ruins representing each period in the city's development.

**Day 8: Sarandë > Himarë, 52 km**

A rollercoaster ride, we leave as the early morning mist is burnt off by the sun, climbing steeply out of Sarandë to a rocky plateau. Then it's over cols into bays and around headlands, always with the stunning mountain scenery to the right and coastal views to the left before descending to the long beach and the bay of Himarë, where there's plenty of time for a swim in the clear blue waters of the Albanian riviera. Along the way we will pay a visit to Porto Palermo Castle, a Venetian castle, wrongly asserted as being build by Ali Pasha of Tepelena in the 19th century is shrouded in many mysteries.

**Day 9: Himarë > Vlorë, 64 km**

Today's ride is not only the most challenging but also the most spectacular. You will gradually climb from sea level up to 1,000m through forests, gorges and hairpin bends. After lunch in the beautiful national park of Llogara we will descend towards Vlorë for an afternoon's relaxation by the Ionian coast. In 48 BC during Roman Civil War, Julius Caesar landed with his legions at the nearby beach of Palase. He soon crossed the mountains over at Llogara Pass in a place later named as Caesar's Pass to chase his adversary Pompey. For centuries, this spectacular mountain range has almost completely isolated this part of the coast from the rest of the country. That's why the local inhabitants had easier connections by sea with Corfu and Greece than by land with inland Albania.

**Day 10: Transfer to Tirana and departure**

Farewell day. Depending on your flight, right after breakfast we will transfer for two and a half hours to Rinas airport in Tirana. A separate transfer will be offered to those staying another night in Tirana or continuing on other adventures.
