

Cycling in Masuria - 11 days

A bike tour around the Masuria Lake District in Poland is a mixture of pure nature and tourist features as well. Make a bike tour that shows you the magic of this beautiful part of North-Eastern Europe. This area is famous for its large number of lakes. The landscape is hilly and full of forests. Masuria and the Masuria Lake District are known in Polish as *Kraina Tysizca Jezior* and "land of a thousand lakes." These lakes were ground out of the land by glaciers during the Pleistocene ice age, when ice covered northeastern Europe. From that period originates the horn of a reindeer found in the vicinity of Gizycko. By 10,000 BC this ice started to melt. Great geological changes took place and even in the last 500 years the maps showing the lagoons and peninsulas on the Baltic Sea have greatly altered in appearance. As in other parts of northern Poland, such as from Pomerania on the Oder River to the Vistula River, this continuous stretch of lakes is popular among tourists.

Your tour starts and ends in Gizycko, the "capital" of Masuria.
