Provence Camargue - 8 days

In the land of light.

'When God created the sun, the earth, the mountains and the sea, and put them into place, he realized that a little of each element remained. So he gathered the bits together to make a paradise and Provence was born' A nice and nearly true story, isn't it? On this bike tour you discover Provence and the Camargue - a land of light, colors and scents. Hence, many well-known painters have lived in Provence: Picasso, Van Gogh, Gauguin, Matisse, Cézanne and Chagall to name just a few. The Mediterranean climate is pleasant, the sun shines more than 3000 hours a year. People live outside, even during the short, crisp and windy winter, and play "Pétanque" and drink their "Pastis". A place of true inspiration that leads to a series of amusing books by Peter Mayle! Provence not only has an easy way of life, but it's also one of the richest cultural regions in Europe. Numerous monuments testify to a long and great past since the Greek and Roman period going to the middle Ages and, even into the last centuries.
